THE COURTS

A JUDGMENT AGAINST MR. BOUCICAULT. pes Purssell in 1873 gave a mortgage W. Riggs & Co., for \$20,000, on the property of way and Twenty-second-st, the menny te be used tellar a theatre. The payment of the money was assumed by Dion Boucleault. The mortgage in 1975 was forcelesed and the property bought in for sed to complete the purchase on account of ed defect in the title. In 1876 the property was resold and bid in by Riggs & Co. for \$10,000. Some time ago. Riggs & Co. entered a judgment by default interaction. Boucheault for \$33,000, the amount of the deficiency on the mortgage and interest and the cost of deficiency on the mortgage and interest and the cost of hitigation. Mr. Boucleault meved a few weeks ago to have the judgment against him set aside. Justice Barrett vesterilay decided that the motion must be granted, on the ground that the plaintiffs are themselves responsible for the deficiency, as tasy varied the terms of sale on the second sale and thus caused the deficiency. Gross of the second sale and thus caused the deficiency to the plaintiffs, if the terms of sale had been the same on both plaintiffs, if the terms of sale had been the same on both sales. The plaintiffs, having by their negligence caused the release of Gross & Co. from Hability, must sustain the loss themselves.

A DEMURRER SUSTAINED.

Judge Wallace, of the United States Circuit Court, yesterday sustained the demurrer to the amended bill of complaint in the suit of Decree Louise Berney. The suit arises out of the dispute about the property left by Robert Berney, who lived for many years in Paris. He left a wife, Louise Berney, who some time ago began a suit in the United States Court in which time ago began a suit in the United States Court in which she charged that a large amount of the property left by her husband had been secured by one St. James, by whose nid James Berney, a relative of the deceased man, obtained letters testamentary on the estate of Robert Herney in Montgomery County, Alabama. Louise Berney afterward received letters testamentary on the same satter from the Surrogate of New-York County, in this State. Drexel & Co. bought some bonds through St. James, and a suit has been begun to recover their value. The Judge holds that the bill in the present suit must be treated as one to stay an action at-law in which the complainants can fully avail themselves of the facts as a defence.

DETROIT, May 31.-A National conferen DETROIT, May 31.—A National conference of prominent advocates of free-trade began here to-day the object being to interchange views as to she best method of propagating free-trade principles. The at tendance was not large. The conference was called to order by W. G. Brownies, of this city. A temporary organization was secured by choosing J. Sterling Morton of Nebraska, as chairman, and James A. McDonald, of Michigan, and C. E. Russell, of Iowa, as secretaries. The following committees were named: Organization L. W. Goode of Iowa, George K. Peabody of New-York. L. W. Goode of Iowa, George K. Peabody of New-York W. G. Brownlee of Detroit, Edward Taylor of Missouriand S. G. K. Prime of Illinois; order of businesa, Thomas G. Shrarman of Brooklyn, W. P. Wells of Detroit, P. J. Philpot of Dea Moines, Ia., A. J. Healey of New-York, and M. C. Frederickson of Wisconsia. Mayor Thompson formally welcomed the conference to the city. He took occasion to express very decided views as to the necessity and propriety of reciprocity treaties with Canada and Mexico.

INDIANS INSPECT A SCHOOL.

(BY TELEGRAPH TO THE TRIBUNE.)

CARLISLE, May 31 .- Colonel Hunt, of th Klows and Compache Agency, with Interpreter Wood. ward and Big Hoe, Sun Boy and White Wolf, of his agency, are visiting the Indian Training School at this place. These chiefs have children at the school, and express themselves as highly gratified with the progress they are making. Two of these, Big Hoe and White Welf, were formerly among the worst enemies of civilisation in the Southwest, and their acceptance of education for their children is no small gain to Indian progress. They will leave here for Washington on Monday next.

THE NATIONAL EDUCATION ASSEMBLY.

cation Assembly for 1883 will meet here on August 9. Among those who will speak or contribute papers are General Eaton, of Washington; Prederick Douglas, Judge Tourgee, United States Senator Blair, Bisbops Sunger Adurgue, United States Senator Blair, Biahops Simpson, Warren and Wiley, of the Methodist Episcopal Church; Bishops Cox, Tuttle and Whipple, of the Protestant Episcopal Church; General C. B. Fisk and Dr. C. H. Fowier, of New-York; Dr. Herrick Johnson, of Chicago; Dr. J. M. Walden, of Cincinnati; President Warren, of the Boston University, and Governor Pattison, of Peunsylvania.

QUOSING PRICES OF BOSTON STOCKS

CLOSING PRICES OF PHILADELPHIA STOCKS.

900, and Central of New-Jersey, 11,500 shares,

Only one other stock (St. Paul and Manitoba, 8,400 shares) recorded transactions amounting to as much

as 6,000 shares. The market opened flat and very

duil. But following that there was a little "boom of 14@19 per cent, which was entirely engineered

by three or four board-room traders. At the ad-

vance, free orders to sell were encountered and another dull period, extending to near the closing hour, accompanied by a general decline in prices to below the opening figures, followed. In the last

half hour of business the movement of the morning was repeated and with such success

from 4 to 1 per cent higher than on Tuesday. Northwestern, Michigan Central and Jersey Central, respectively, are 11s, 10s and 11s higher. Of

he four active stocks other than Central of, New-Jersey the advances are: Delaware, Lackawanna and Western, 1₆; St. Paul, *8; and Union Pacific, per cent-the latter on the announcement that

the Union Pacific directors, one week earlier than usual, had declared the regular quarterly dividend

of 1% per cent for the quarter to end June 30. St. Paul and Manitoba stock was exceptionally weak, and declined from 119 to 1141; later it recovered to 1164. The sales of Pacific Mail amounted to 100 shares at 42; the last quotation was 41@42. Government bonds were excessively dull, but the sices were about steady after a decline of 1s in the delings for the 4s. Annexed are the closing quota-

> ses were higher; de up to to 45. The quotations for the

the closing prices generally were

and short sterling respectively. 5.104 and 3.104 for gailders.

The governors of the Bank of England at their weekly meeting to-day made no change in the bank's infimum rate for discount, and it remains at 4 per cent. During the week the bank gained £367,000 builion, but the proportion of reserve to its liabilities was raised only 's per cent to 354, against 40 11-16 per cent at this date last year. To-day the bank made a further gain of £104,006 builion on balance. The weekly statement of the Bank of France shows a loss of 3,425,000 trancs in iold, and a gain of 107,500 francs in silver. At the London Stock Exchange British consols were steady and unchanged at 102 1-16 for both money and account. United States 4s and 4½s respectively were 'lg and ½ higher than Tuesday at 1217g and 114½, and the 3½s were unchanged at 105½. American railways were irregular, but generally lower than Tuesday; at the close there were some recoveries. At Paris French 3 per cents, which yesterday declined from 80.17½ to 79.82½, recovered to 80.12½ france.

overed to 80.121g franca.

Bullion valued at \$35,000 was received in this city yesterday from the mines.

Father de Smet superintendent's report for week ending May 22 shows: Ore extracted from first level, 500 tons; second level, 300 tons; third level, 200 tons; ore milled, 1,100 tons. From the 18th to the 21st there was a partial suspension of the working of the mill in consequence of high water. Golden Gate north header is in 111 feet. water. Golden Gate north header is in 111 feet.

The vice-president of the Sampson Mining Company reports that 31 tons of second-class ore from the company's mine were sold at Salt Lake City on May 22 at \$32 per ton, and that two cars of first-class ore were to have been shipped from the mine on Mosday last. Reports from the mine state that on May 18 the east drift of level No. 2, Van Prasg incline, had opened into three fact of solid ore, averaging 55 cances silver per ton and 32 per cent lead, and that the west drift was in one foot of first-class ore running 100 cances silver per ton and 42 per cent lead. The new shaft is down 60 feet and is to be connected with the vein at a depth of 200 feet by the first of August next.

POOR CROP PROSPECTS IN VIRGINIA.

PETERSBURG, Va., May 31 .- Most discouraging accounts of the crops in discrent peris of the State accoming in. Cotton is coming up badly and the tobacco plants are small, and in some instances they are drying up in patches. If a full crop of tobacco is made it with by very late. In the peanut section many farmers have been forced to replant, in consequence of the seed planted having become rutten.

"Well," said the lady whose husband had run away wite too school ma'am, "there's one consti-tion i I know the inside facts or this seanch, and that's never then those spitcing old maids across the way do."

Tallow—Quiet and barely steady: Prime City quotes at 7 10-16c.; sales, 72,000 h. 7 18-16-6c.

WOOL—Mauger & Avery's circular says. The condition of the Weel Market has not as all improved since our April officular, but is in fact is worse shape than at that time. On account of the pancity of stocas a great many feit confident that manufassarers would be empelied, before new Weste arrived, to take what remained of old Fleeces at best price obtainable. But being bester supplied than was supposed, and les-ening their production of goods, as well as by ordering to some extent of Colonial Weels, manufacturers have been able to keep out of market until this time, and if a general stoppage of the inarchinery in June is agreed upon, the supplies will prove ample without any of the large smount of Foreign Weel which will be put on the market after July I. The gloom of the Woollen menufacturers continues. It is not an artificial sentiment to depress the price of the new city, but is the result of mprofitable business caused by over-production. The manufacturer of most grades of goods has outsiripped the legitimate demand, and unless production is checked the knile will have to be used until the weaker concerns are at lifed off and the wants of the country require all the goods produced.

LIVE STOCK MARKET.

NHW-YORK May 31.—BEEVES—Receipts to day were 41 cars of 623 head—31 cars at 60th-st, and 10 cars at Jerney City. Total for five days, 9.4-36 head against 9.808 head for the corresponding time last week. The arrivals at 60th-st, were all Export Cattle for Mr. Eastman, and the 10 carleads at Jerney City were beld for 10-morrow's market, If the arrivals for to-morrow do not exceed 136 carleads a good trade may be expected at full Wednesday's prices.

THE PETROLEUM MARKET.

The monthly report of the development work in the oil regions for May is favorable. Although the number of wells completed shows an increase of 21, the new production declined 1,081 barrels from April, and the average per well was 14% barrels, against 21 1-3 barrels in April. The average each month this year has been: January, 22¹2; February, 15 1-5; March, 28 1-6; April 21 1.3; May 14% barrels. There is shown in May April, 21 1-3; May, 14% barrels. There is shown in May a decrease from April of 11 in the number of wells drilling, and of 36 in the number of rigs up and building. The figures since the first of the year are as annexed:

Wells wells Rigs up production.

January... 124 126
February... 151 150 163 1,984
March... 148 211 205 4,113
April... 215 306 212 4,581
May... 238 195 176 3,500 31
Since Tuesday news has been received from the oil fields encouraging to the "bears." The Stewart well No. 2, east of the Cooper tract, opened with 240 barrels flowing in the first seventeen hours; the position of the well, should it maintain a good rate of production, indicates an extension of the new producing tracts. The Weich No. 2 made 580 barrels in the first twenty-four hours, but later accounts put the rate at fitteen barrels an hour. The Grandia No. 8 is estimated to be equal to 100 barrels a day. Other wells in the Cooper tract are expected in soon.

The perfocum market to-day was rampantly "bullish." fr m beginning to end. News was not sought, every trader beauing his operations on "points" as to what the "bull" syndicate intended to do. The trading was large and excited at an advance from \$1 10\$ to \$1 20, the closing being strong at \$1 19\$.

The range of prices and the total dealings in New-York were as follows:

N. Y. Pet. Cons. Etc.

BROKERS IN OIL BUSY AND EXCITED. BROKERS IN OIL BUSY AND EXCITED,

wanted. Medium sell at 10 250 250, Light (including Pigs) at
110 250 250, Light (including larger than usual, and the outside gambling on the fluctuations reached considerable proportions. Over 9,000,000 barrels were traded in at the Exchanges and much excitement was caused among the brokers when the long-promised figures of \$1.20 per barrel were scored. The Hofman House was thronged with oil men in the evening, who made contracts to close their accounts on the day's business down-town or in the hope of bettering themselves upon the fluctuations at the Exchanges to-day.

PRICES IN THE CHICAGO MARKETS, BY TELEGRAPH TO THE TRIBUNE.

CHICAGO, May 31 .- A rumor was current to night that the report of the Agricultural Bureau to be issued from Washington to-morrow will predict a short-145,000,000 bushels. The rumor undoubtedly was acplace after the close of the call. But responsible traders put no faith at all in this pretence that the facts have been allowed to leak out before the proper time for publication. No such efforts have been put forth to get this spring wheat report as were made to obtain in advance the gist of the May winter wheat predictions. No one, it is believed, got the May figures. The men wao are now the most interested made no attempt to stent the predictions to be issued to-morrow. A fact which further discredits the rumor is that the brokers for the New-York clique that owns more wheat than any one else, admit that they expect

the document to show more or less of an apparent im-

provement. It will not be real, they claim, but the fields will be greener than they were thirty days ago, and the

prospects to the casual observer and to the uninitiated

will consequently be fairer.

The wheat market was neither weak nor strong during the day. It was at times higher than it closed on Tuesday and at other times lower. The fluctuations were narrow, the highest and lowest figures being not at any time over 1 cent apart. The distant options, August, September, October and year, are the firmest, fluctuating very little, even while the nearer months were weakest. Mayon the cell closed at 1134. Jane at 1129. July at 1153s. Shortly after close on the curb "tuese options were guage 3a higher. The prospects of a war abroad art very little considered although the local papers are predefing that a war between France and Gereaby is not improbable. There still seems to be some manuswring or the purpose of depressing prices, and Kernhaw ay sense to be one of the manusweverer. He has gone "abort," at a lower figure. His "bear" raids are now simply for the purpose of making an escape as easily and cheaply as possible. The New-York clique in buying out the west spots, as for instance this afternoon on the oalt, and is apparently present too whenever Kershaw want to buy. The very larke holding of the Louis, which were bought two or three days ago and which are or asia at a little advance, are preventing any built movement for the present. The New-Yorkers want, when they take this it. Louis grain, to take it at a lower and not a higher figure. "The case and accreey," said a broker, "with which Armour and Kent could whom have little states better than anything case the very great bullishness of kee grain-appointing purch. The receipts of corn were apparently very large to day, but in reality the 721 cars bulletined were the receipts for two days. The shipments were ever \$25,000 bushels, and the engagements over 400,000 bushels. Prices were figure the present that personal appointance. Then were a second a support to the market. The hop receipts for two days. The support of produces the price of produces the price of produces as between them controlling prices, and the great operato will consequently be fairer.

The wheat market was neither weak nor strong dur-
